

2018

Carlijn Hendriks

Clearing the air : Air quality modelling for policy support

Utrecht University, The Netherlands (pdf)

2017

Sha Lu

Variational data assimilation of satellite observations to estimate volcanic ash

emissions Delft University of Technology, The Netherlands (pdf)

Guangliang Fu

Improving volcanic ash forecasts with ensemble-based data assimilation

Delft University of Technology, The Netherlands (pdf)

2014

Sabine Banzhaf

Modelling the fate of secondary inorganic aerosol and its precursors over Europe

Free University Berlin, Germany (pdf)

2013

Andrea Mues

Modeling air quality in a changing climate

Free University Berlin, Germany (pdf)

Joost aan de Brugh

Aerosol processes relevant for the Netherlands

Wageningen University, The Netherlands (pdf)

2010

Alina Barbu

Ensemble-based data assimilation schemes for atmospheric chemistry models

Delft University of Technology, The Netherlands (pdf)
